Placement Brochure

"It has become appalling obvious that our technology has exceeded our humanity."
- Albert Einstein

College of Agricultural Information Technology

Foundation of CAIT

An accelerating agricultural growth is the pre-requisite for inclusive growth, reduction of poverty levels and better socio-economic status of the stake holders, for which, higher agricultural education must be at the center of reform agenda. It is necessary to adopt required strategies especially focusing on newer and innovative academic programmes and courses as per need of the agricultural sector for its sustainable growth at the state and national level.

In pursuit of academic excellence and innovative solution to emerging challenges and demand of agricultural sector, AAU's activities have been expanded to span newer and frontier areas of agricultural education. One such area is Agricultural Information Technology (AIT) for which AAU started B. Tech. (AIT) programme in 2008-09 under approved state plan project.

ICT applications in Agricultural education, research and extension are increasing to justify the increasing demand for better communication and dissemination of knowledge from 'lab to land'. To visualize, design and execute such computer applications and information technologies for the development of agriculture and allied sectors, specialized resource persons are needed. Though many institutions offer courses on IT, Agricultural Information Technology course is designed to cater to the specific needs of modern agriculture.

About AAU

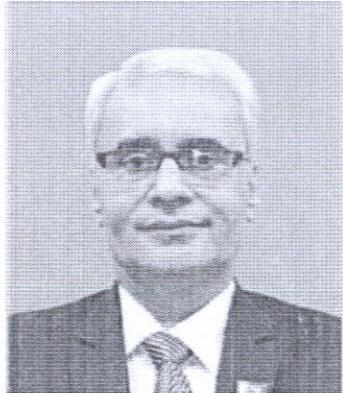

<http://www.aau.in/>

Anand Agricultural University (AAU) was established in 2004 at Anand ~~with the support of the Government of Gujarat, Act No.(Guj 5 of 2004)~~ dated April 29, 2004. Caved out of the erstwhile Gujarat Agricultural University (GAU), the dream institution of Sardar Vallabhbhai Patel and Dr. K. M. Munshi, ^{at} present the University has seven Colleges offering various Polytechnic, UG and PG courses, seventeen Research Centres and six Extension Education Institute.

AAU's activities have expanded to span newer commodity sectors such as soil health card, bio-diesel, medicinal plants apart from the mandatory ones like rice, maize, tobacco, vegetable crops, fruit crops, forage crops, animal breeding, nutrition and dairy products etc. The core of AAU's operating philosophy however, continues to create the partnership between the rural people and committed academic as the basic for sustainable rural development.

The University is known as a pioneer in agricultural education. The university has created a benchmark for top-notch quality education. It helps the students who are keen to have a higher degree and do research in any area of study. The scholarships and awards are given based on merit list, co-curricular and extra-curricular activities. Students also gain international exposure with universities such as Albert-Ludwing University, Freiburg, Germany, Katholieke University, Leuven, Belgium, University of Vilnius, Vilnius, Lithuania etc.

Message from Vice Chancellor

Dr. R. V. Vyas

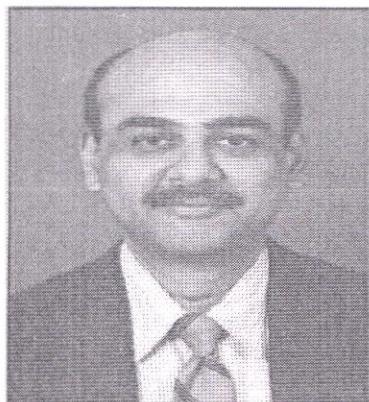

Anand Agricultural University is a prestigious and oldest institution in agriculture and allied sciences at the state and have best reputation at National level, as AAU has been positioned among top 100 Universities of India by NIRF, GoI in years 2017 to 2019. Further, recently AAU secured 4th position in the category of Govt. & Govt. aided Universities at National level in the Atal Ranking of Institutions on Innovation Achievements (ARIIA) - 2020. Strengthening & Empowerment of farmers and create quality human asset is the central aim of the University. The University was set up through vision and nurturing of its roots by Sardar Vallabhbhai Patel and Shri K.M. Munshi.

The application of Information Technology in Agriculture and allied science is raising tremendously because of its ability to improve performance, production, profitability, administration and management quality. With the assistance of Information Technology services like Kisan Call Center and e-Krishikiran, i-Khedut app etc., farmers can get useful information on climate, disasters, process and practices for improving quality & quantity of production in a compelling way with e-commerce for market analysis.

Considering the today's need of the collaboration between Agriculture sector and Information Technology, Anand Agricultural University has bring out unparalleled and unique under-graduate programme -"Bachelor of Technology in Agricultural Information Technology" to fill up this gap and provide quality education in Information Technology assisted Agriculture. The students are geared up with necessary technical and aptitude skills along with discipline and morality to cater the needs of the industry. I hearty appreciate the endeavors of the College of Agricultural Information Technology for developing such Human Resource for the service of agriculture and allied sector. It gives me an immense pleasure to perceive that 'Placement Brochure-2020' for the final year B.Tech. students of the Agricultural Information Technology is being bring out by the College.

In the recent years, the graduates of this college have manifested their caliber in the industry as well in higher education. I am confident that our students will serve for the betterment of farming community with their Agri-IT skills. I hearty welcome to all the prospective employers to AAU for suitable manpower search and wish our prospective students all the best for their future endeavor.

Message from Director of Students' Welfare

Dr. D. H. Patel

The modern world is so competitive these days. People take a lot of efforts to increase the skills and talents in themselves to give their best. The world has become a place for the survival of the fittest. People are taking a lot of interests to practice and develop the skills in them. This competitive spirit also provides positivity in people to achieve and accomplish the desired goals in life.

College of Agricultural Information Technology (CAIT) has been a target for scattering of most recent and refined innovation and procedures in the area of farming. The college means to take into account the upcoming and coming requests of the Agrarian Economy by age of a youthful workforce gifted with expertise of future prepared Information and Communication Technology and conferring the equivalent in Agricultural domain.

CAIT gives most extreme significance to help its understudies in getting appropriate positions after the effective consummation of their examinations. CAIT guarantees that each student to get the correct expertise and area information so they are effectively worthy to the business. CAIT sorts out trainings and workshops that empower students to be successful group pioneers. The college is worked with twin-crease center, for example enlarging inside abilities by encouraging contemporary prepping of understudies and by empowering industry to distinguish and assimilate learned people with imperative specialized and administrative aptitudes. The students have access to the best and highly graded tools and techniques, library resources, training workshops, latest trends and research. The solid and experienced workforce helps guide and shape the students through an educational program that has been worked through normal association with the Industry. Up and down, the attention on building pioneers with a solid character stays principal.

We believe in Dedication, Determination, Discipline & Efforts. Our students are groomed keeping in mind the current needs & challenges of the Corporate work environment. We would like to thank industry professionals for their constant support & cooperation extended to CAIT and look forward to strengthen the relationship.

Message from Dean

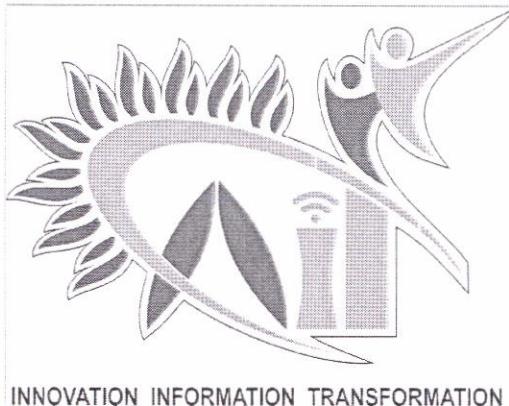

Dr. Y. R. Ghodasara

College of Agricultural Information Technology (CAIT) stands firm on its guarantee of being devoted to the country. In this regard, we offer the company with the sort of professionals that fits the development of the association, and to be sure, the country itself. This new batch of young, energetic and extremely talented students have been extensively trained, coached and nurtured with the necessary skills needed to be an effective leader in the corporate world. The skills they would depend upon while transforming the corporate environment into a more productive, healthy and competent workplace.

Moreover, CAIT welcomes all our new accomplices in the Institute and searching for a long solid commonly useful relationship with them. CAIT value their association and affirming our untiring help to them. The current cluster of the students taking an interest in different fields, specialized abilities like games, culture and social flexibility. We have always strived to stay in tune with the developments in the Industry and have suitably restructured our curriculum, programs and teaching pedagogy to ensure that our students get the best and most relevant skills to enhance their holistic nurturing. Our vision is to create future leaders who will manage and create powerful organizations in the emerging corporate landscape. Various pedagogic tools help our students to develop not only a business perspective but an ability to seize opportunities in a competitive business environment. At the same time they remain committed towards the betterment of the society.

CAIT welcomes the seekers of young and talented professionals to the 'Campus Recruitment Program' and give this group of graduating Student a chance to demonstrate them and increase the value of the associations they join. We wish this will be a positive step for the enrollment specialists and take forward stage forward in refining past relations and build new ones.

About CAIT

<http://www.aau.in/college-menu/703>

College of Agricultural Information Technology was established in the year 2008-09 under the aegis of Anand Agricultural University. The CAIT offers 4-yrs B.Tech. (AIT).

The college aims to cater to the upcoming demands of the Agrarian Economy by generation of a young workforce skilled with knowhow of future ready Information and Communication Technology and imparting the same in Agricultural sector.

agriculture and allied

The College building is surrounded by lush green natural environment with enough resources such as well-ventilated lecture halls with audio visual facility, computer labs, scientific equipments, Wi-Fi Internet access, library, NCC/NSS, sports, project and placement cell etc.

The curriculum of B.Tech. (AIT) is a blend of Agricultural Science and Information and Communication Technology (ICT) to harvest the potential of both the sectors. And We are looking forward to introduce innovative practices of automation and information mitigation by means of ICT in the sparsely charted agriculture and allied sectors to bridge the gap between the skills of the technocrat and the farmer. College of AIT is nodal institute for IIRS (Indian Institute of Remote Sensing) outreach training programme.

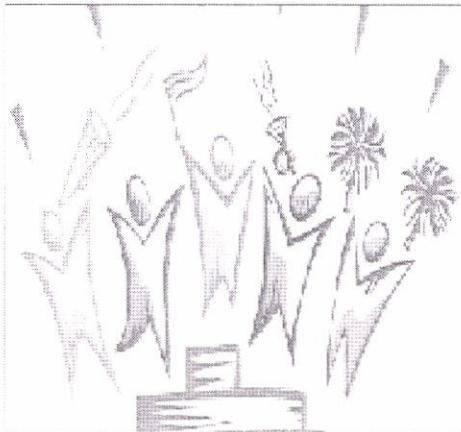

Goal And Objective

- To develop competent human resource in the area of Agricultural Information Technology for better modern agricultural education, research and extension activities.

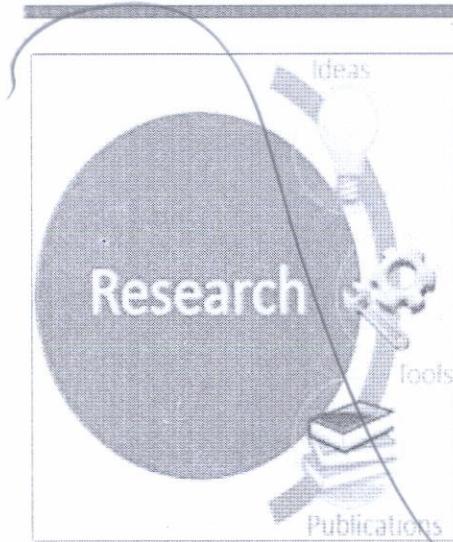

- To conduct undergraduate academic programmes on Agricultural Information Technology leading to B. Tech. (AIT) degree.
- To conduct various training programmes related to Agricultural Information Technology for capacity building.
- To run short-term courses on Agro informatics, Object oriented programming, Agriculture Software, Data communication and Networks, Agriculture Knowledge Management System, Network application, Statistical Software, Remote Sensing and Geographic Information System, etc. in various fields of agriculture and allied sector ~~and~~ rural development.
for

Accomplishments

- College of Agricultural Information Technology was established in year 2008-09, second of its type in the country, imparting degree of B. Tech (Agricultural Information Technology) with an intake of 40 students.
offered a
- First batch of B. Tech. (AIT) entered market in the year 2013.
Passed out
- Till year 2019, 185 students have been awarded B. Tech. (AIT) degree.
- From these 185 alumni, 115 students had preferred higher education in renowned institutes like IIT – Guwahati, MNIT – Jaipur, IIRS – Dehradun, IIIT – Guwahati, DA-IICT – Gandhinagar, EDI – Gandhinagar, Nirma University – Ahmedabad, IRMA – Anand, University of Twente, ITC, Netherlands and many more.
- 64 students opted for job and are enjoying good positions in NRSC – ISRO – Hyderabad, IIT – Madras, GIST – Mumbai and software companies.
many others
- CAIT have strengthened AAU by developing softwares like Soil Health Card Portal, Online Admission for UG, PG & Polytechnic Courses of the SAU's of Gujarat, Online Tour Diary, Mobile Apps, Portal for Field Level Demonstration, Online Job Application, Online Billing Management System, Post Graduate Information System, Document Management System, Livestock Research Station Management Information System, Annual Budget Management System, Web based Application for Dead stock and it asset Information Management, Online Information Management for Extension Education Centers of AAU, Online Information Management System for Plant Protection, GEA – mobile App (Girl's Emergency Alert mobile application for hostelite girl students of SAU's of Gujarat), Student Information Management System, Veterinary Drugs Information System for teaching, research and extension activities.

Accomplishments

check font size

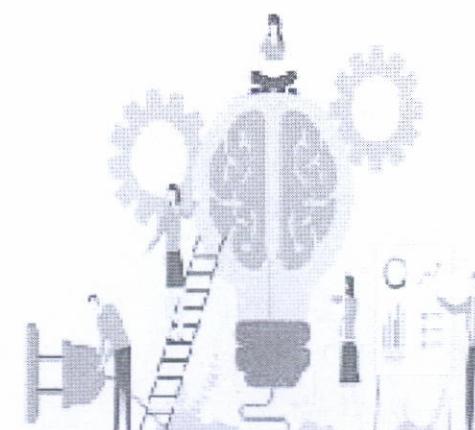

The important ongoing research /accomplishments of the college include developing following technologies/contribution

- Suggestion of Alternative Cropping Possibilities Based on Length of Growing Period for Rainfed Crop Driven By Graphical User Interface
- Developed Student Corner (Web Application) for Under Graduate students of Anand Agricultural University.
- Computer Technology Awareness (literacy and competency) study among the faculty of Anand Agricultural University
- Calculation of Leaf Area Index through image processing (LAM Software)

- Though a separate Directorate exists in the University for extension education work, the teaching, research and extension activities are interlinked with the college.

- The faculty of the college play crucial role in training programme of farmers, rural youth, gram sevaks and different cadres of Govt. staff in the agriculture information technology sector on modern and practical methods of mass communication via internet and mobile and on the recommendations made for farming community by the Agricultural Research Council of the college and the university.

- Apart from teaching and research, the teachers render agricultural advisors to farmers on cultivation of crops and their protection from pests, diseases and weeds. Teachers also attend Krishi-Mahotsav and other farmer centric programmes for

Syllabus

First Semester

- Fundamentals of Computers
- Programming in C
- Introduction to Web Scripting
- Fundamentals of Agronomy
- Introductory Botany
- Elementary Mathematics
- Fundamentals of Physics
- English for Speaking and Writing Skills
- NCC / NSS / Physical Education

Second Semester

- Data Structure Through C
- Fundamentals of Plant Pathology
- Introduction to Multimedia
- Computer Organization and Architecture
- Environmental Studies and Disaster Management
- Crop Production Technology (Kharif & Rabi)
- Production Technology for Fruit and Plantation Crops
- Solid State Physics And Basic Electronics
- NCC / NSS / Physical Education

Third Semester

- OOP Using C++
- Relational Database Management System
- System Analysis and Design
- Website Development Using PHP
- Entrepreneurship Studies and Business Communication
- Principles of Agricultural Economics
- Fundamentals of Soil Science
- Agricultural Statistics-I
- Seminar - I
- NCC / NSS / Physical Education

Fourth Semester

- Software Engineering
- Introduction to .Net Framework and ASP .NET
- Information Security
- Management Information Systems
- Introduction to Biotechnology
- Introductory Agro Meteorology and Climate Change
- Fundamental of Agricultural Extension
- Agricultural Statistics-II Using SAS
- Project - I

Fifth Semester

- Advance Asp.Net
- Java Technology
- Computer Networks
- GIS and Remote Sensing Techniques
- Communication Skill and Personality Development
- Data Warehouse and Data Mining in Agriculture
- Principles of Genetics
- Farm Machinery and Power
- Seminar – 2

Sixth Semester

- E-Content Development using Multimedia
- Operating System with UNIX/ LINUX
- Application Development Using Mobile Technology
- Data Analysis with MATLAB
- Agricultural Marketing, Trade and Price
- Crop Simulation Models
- Protected Cultivation and secondary Agriculture
- Fundamentals of Entomology
- Mini Project

Seventh Semester

- Experiential Learning - 1
- Experiential Learning - 2
- Experiential Learning - 3
- Educational Tour

Eighth Semester

- Project

Faculties

Dr. Y. R. Ghodasara (Dean)

Student Profiles

DEVAN BHAMMAR

bhammardevan2100@gmail.com
 [9825974832](tel:9825974832)

IT Skills

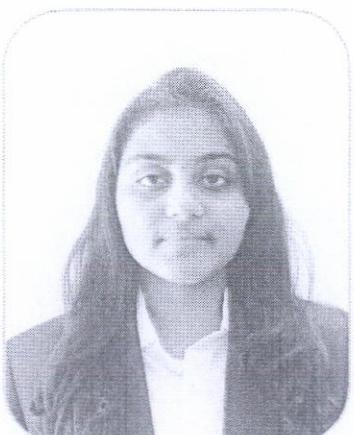

ASP.net, ASP.net MVC, C#, MS SQL MySQL, HTML, CSS, JavaScript.

Projects

- Medicinal Plant Information and Selling System,
- Farmer Recommendation System
- Rental Zone

RASHMI CHANGAVADIYA

patelrashmi17899@gmail.com
 [8469510509](tel:8469510509)

IT Skills

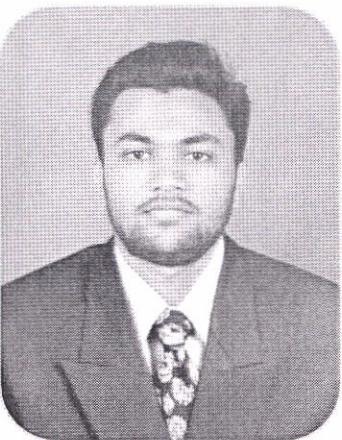

HTML , C# , JavaScript , ASP.NET MVC , SQL Server/MySQL , CSS , Bootstrap , Also have fair experience of MATLAB and Android.

Projects

- Fruit Product Selling System,
- Sports Events Management System
- Khedut Update

RUTVIK CHAUHAN

 rutvik1619992@gmail.com
 [7984271856](tel:7984271856)

IT Skills

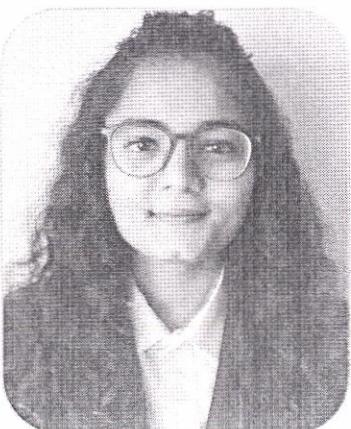

C, Core PHP along with Laravel Framework, .NET C#, HTML5, JavaScript, MySQL, MS SQL Server, Autodesk 3ds MAX, Adobe Photoshop, Adobe after Effects, MATLAB.

Projects

- Tourism Management System, 
- AAU Connect
- AspiFeeder

HEMANGI CHHAYA

 hemangichhaya2000@gmail.com
 [9737674293](tel:9737674293)

IT Skills

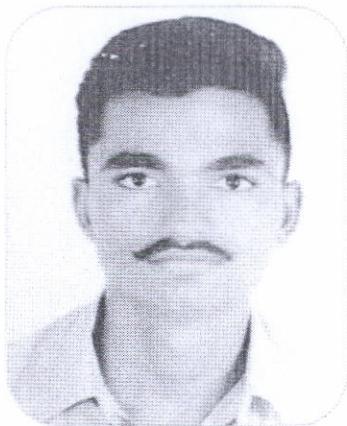

HTML , C# , JavaScript , ASP.NET MVC , SQL Server/ My SQL , CSS , Bootstrap , Also have fair experience of MATLAB and Android.

Projects

- Crop Disease Management System,
- Event Calendar for AAU
- Application of Chatbot

ARJUN CHOPDA

arjunchopda83@gmail.com
 [8141685669](tel:8141685669)

IT Skills

PHP , HTML , JavaScript, Asp.NET My SQL , SQL Server

Projects

- Animal Healthcare System
- Online job Applications System

ANKIT DEVANI

ankitdevani05@gmail.com
 [8200835156](tel:8200835156)

IT Skills

Core Java , Spring Framework, Spring boot, JPA, HTML, CSS, Bootstrap, Angular, Git using GitHub, MySQL

Projects

- Organify (E-Commerce Site)
- Blogging Site
- Eduvation (e-learning platform)

HAPPY DHAMASANIYA

dhamasaniyahappy3931@gmail.com
 [8141685669](tel:8141685669)

IT Skills

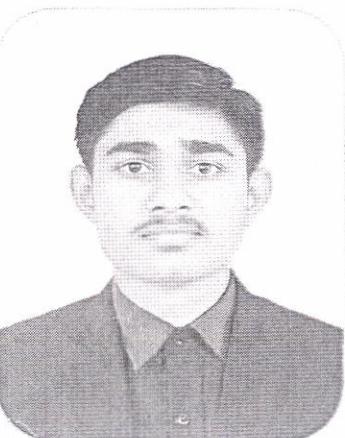

PHP, MySQL, Python, HTML

Projects

- Hostel Management System
- Face Recognition Attendance System

VIKRAM DHARAJIYA

vikramdharajiya19@gmail.com
 [7096612158, 6354982114](tel:7096612158, 6354982114)

IT Skills

C, C++, C#, HTML, CSS, PHP, JAVA, JavaScript, asp.net, asp.net MVC, BootStrap, SQL Server, MySql, Adobe Photshop, Adobe Flash, Adobe Illustrator, 3DS Max, Android, Blender

Projects

- Agricultural equipment selling system (Web Application)
- Artificial Intelligence (Deep Learning) based Crop Disease Advisory System
- Online tuition classes (Mobile Application)

HARDIK DHUVA

hardikahir99457@gmail.com

[6352845050](tel:6352845050)

IT Skills

C#, ASP.NET, ASP.NET MVC, PHP, MySql, JQuery

Projects

- Farmer's Calendar
- Anubhav Dairy Shop Management System

REETU GOHEL

rsgohel1750@gmail.com

[8128127095](tel:8128127095)

IT Skills

ASP.NET, C# ,C, asp .NET MVC, Android Studio, SQL server, MySQL ,HTML, CSS, Bootstrap

Projects

- Economic Analysis of farmers, ~~Ox~~
- QR code scanner for AIT ~~Ox~~
- Job bank

JAYDEEP GORASIYA

 jaydeppatel@student.aau.in
 [9157438152](tel:9157438152)

IT Skills

HTML, CSS, Bootstrap, Core Java, PHP, Ajax, JavaScript, AngularJS, C/C++, MySQL, Sql Server

Projects

- Manpower resource management in agriculture
- Path analysis software in agriculture

ROHIT ITALIYA

 rohititaliya@gmail.com
 [8200713200](tel:8200713200)

IT Skills

PHP, MySQL, ASP .net mvc, Python, Android Studio with Java , Core Java

Projects

- Online selling System,
- Arduino Plant Manager,
- To Do List App

JAY GOHIL

jaygohil28800@gmail.com

[9727307848](tel:9727307848)

IT Skills

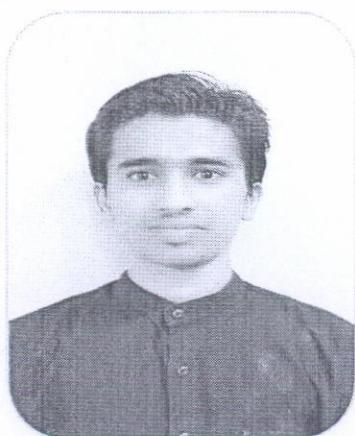

C, C# , PHP, Python along with OpenCV, Keras, Tensorflow, NumPy; HTML, Javascript, ASP.NET MVC, MySQL

Projects

- Automatic License Plate Recognition System (Image Processing) 
- Artificial Intelligence (Deep Learning) based Crop Disease Advisory System

AFTAB MADHARA

aftabmadhara99@gmail.com

[9377136336, 6351393959](tel:9377136336, 6351393959)

IT Skills

C, HTML, PHP, JAVA, asp.net, asp.net MVC, SQL Server, MySql, Adobe Photoshop, Android

Projects

- Online Organic Products Selling Portal (Web Application)
- Android QR Code Scanning Application (Mobile Application)

KEYUR MARKANA

keyurd.markana@gmail.com

[9726084876](tel:9726084876)

IT Skills

HTML, PHP, MySql, C++, Arduino

Projects

- Veterinary Clinic Case Record System
- Sensor base irrigation system in greenhouse

NIRMAL NAYI

nirmalnayi127@gmail.com

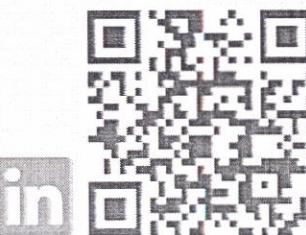

[9016011493](tel:9016011493)

IT Skills

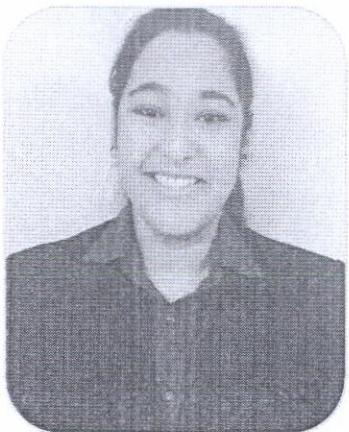

C , Core PHP , .NET C# , JavaScript, Core java along with J2ME(Android)
Android Studio, SQLite , MySQL , SQL Server

Projects

- SIMS (Student Information Management System)
- E – Grampanchayth (Mobile Application)
- Car Rental System (Mobile Application)

TANVI PANCHAL

tanshvipanchal123@gmail.com

[7621022724](tel:7621022724)

IT Skills

HTML, PHP, C#,
ASP.NET, MVC,
MySQL, SQL Sever

Projects

- Online Pet Shop,
- Online Private-Tutor Finder System

DIVYA PATEL

divyabenpatel1999@gmail.com

[9316423529](tel:9316423529)

IT Skills

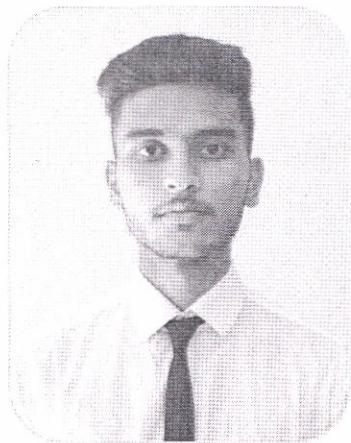

ASP.net, ASP.net MVC, C#, MS SQL Server/MySQL,
HTML,css, JavaScript, Adobe After Effect, Blender

Projects

- Online flower shop,
- Artificial Intelligence(Deep Learning) based Crop Disease Advisory System, A small checkmark icon is placed next to this project entry.
- Course Junction

HEMAL PATEL

 hemalhvp@gmail.com

 [8780271413](tel:8780271413), [9714596085](tel:9714596085)

IT Skills

Core Python, PHP, MVC,
Django, Django REST API, React JS, JavaScript,
Git using GitHub,
PostgreSQL, MySQL, SQLite

Projects

- Fertilizer Selling System(FSS)
- Artificial Intelligence(Deep Learning) based Crop Disease Advisory System

KISHAN PATEL

 kishanp11099@gmail.com

 [9106714256](tel:9106714256)

IT Skills

PHP, HTML ,Core Java,
Spring framework (java), Asp .net,
SQL Server, MySQL

Projects

- Car Rental Management System
- Agro- climatic information system

SAJAN PATEL

sajan.patel06032000@gmail.com
 [7405590547](tel:7405590547)

IT Skills

HTML, CSS, Javascript, Bootstrap,
Photoshop , After effect , 3ds max, Adobe
Illustrator

Projects

- Sardar Smruti Kendra
- Commercial Advertisement
- Logo Making , Graphics Design

SHIVANGI PATEL

patelshivangi217@gmail.com
 [9081240781](tel:9081240781)

IT Skills

C#, HTML. Also have fair experience of Android and MATLAB. JavaScript, ASP.NET MVC, Bootstrap, SQL Server/MySQL

Projects

- Amul dairy products selling system
- Human resource management system
- Banking Transaction System

SHRADDHA PATEL

shraddhapatel1400@gmail.com

[9512564913](tel:9512564913)

IT Skills

HTML, CSS, Javascript, Bootstrap,
Django REST Framework, React JS,
Also have fair knowledge about Python along with
Tensorflow & Keras,
Git using Github, PostgreSQL, MySQL

Projects

- Artificial Intelligence (Deep Learning) based Crop Disease Advisory System
- Academy (An Education Portal)
- Career Club

RAVIRAJ PRANAMI

praviraj4168@gmail.com

[8849760507](tel:8849760507)
