Academic Projects

Fertilizer Selling System

Technology used : PHP, HTML, CSS, Bootstrap Database : MySQL

Fertilizer selling system is buying and selling website where a farmer can directly purchase his products by sitting at his home only he has not to waste his precious time.

e - Krishi Tidings

Technology used : Core Python, Django, JavaScript, Bootstrap 4, CSS, HTML Database : PostgreSQL

My project based on data scraping. its scrap news from different agriculture news website and store into database and then stored data render into front-end page.
